

The Sunday School program at BBC is designed to provide systematic training and instruction in God's Word for the whole family, and to apply His truth practically to our daily lives.

- **Primary and Junior Sunday School:** These classes are designed to guide elementary-age children into a real relationship with God, while also laying a foundational knowledge of Bible stories and important truths that will have an impact now and for eternity.

- **Teen Sunday School:** The teen class is specifically geared to meet the spiritual needs of our young people by grounding them in the Word of God and giving them the tools they need to live holy, God-fearing lives in a perverse and sinful world. Our goal is to see each young person develop a true love for God and surrender to follow Him into the center of His will. Teens meet together regularly for times of Bible study, fun and recreation, as well as various evangelistic outreach ministries.

- **Adult Bible Study:** Adults meet every Sunday during the Sunday School time and enjoy

a practical study of God's Word. In this class adults study whole books of the Bible, biblical characters, or topics that relate to practical areas of life.
